

You are invited to a special screening of the *TEACH* documentary at the
FIRST CHURCH IN JAMAICA PLAIN
UNITARIAN UNIVERSALIST 6 Eliot Street, Jamaica Plain
Friday, April 26, 7:00 p.m.

Join us for a lively discussion about the attacks on our public schools, the impact of the separate and unequal assignment plan, and the proposed large increase in charter schools funding. With the attacks on equal quality education dramatically increasing and the substantial increase in charter schools and level 4 schools, the *TEACH* documentary are more relevant now than ever.

TEACH, Teachers Are Talking, Is the Nation Listening brings an important perspective to the national education debate that is currently being dominated by a corporate led agenda to privatize education and blame teachers for everything that is wrong with education in this country. This documentary takes on many questions about No Child Left Behind, high stakes testing, unequal distribution of education resources, and schools dominated by data driven curriculum instead of providing an education that is dynamic, creative, exciting, and joyful.
